About Me

I am a passionate Mental Health Professional working in this field for past 6 years and implicating a Holistic approach towards the clients. The intention of the therapy sessions is not only to get rid of the symptoms or overcome a crisis situation but rather it is to transform self and grow to their maximum potential. Each individual is unique therefore I implement eclectic psychotherapeutic techniques. With Client centered approach, empathetic listening and non- judgmental acceptance I try to build a safe space for the clients where they can grow in their cognitive, social, emotional and spiritual journey.

Professional Experience

1. Presently working at Sri Healthcare-Research International (SHRI) as a Psychologist from July 2019
